### Certification of safety cups

Dear Mr Maynier,

Safety System AB from Sweden asked us to test their safety cups. We have done the FEI approval testing to receive the certificate. In addition to the test of the static release force, the safety cups were inspected visually.

After these tests the safety cups received the certificate. A copy of the certificate is added to this letter.

If you have any questions, don't hesitate to contact me.

Kind regards,

p.p.  
Dipl.-Ing. Daniel Wegener  
Group Leader Vertical Dynamics and Durability

p.p.  
Dipl.-Ing. Birger Klaus Queckenstedt  
Chassis Department

date: 18.02.2011

reference: 11bq0029.docx

## *Certificate*

This is to certify that the safety cups  
provided by:

**Safety-System AB**

**Tillinge Tibble**

**745 94 Enköping**

**Sweden**

have been tested at the Institut für Kraftfahrzeuge Aachen. The safety cups with the label  
"www.safety-system.com" have fulfilled all requirements and therefore they have been  
approved. This certificate is only valid for this type of safety cups; any changes will require a  
new testing procedure.
